NOTES

- Distribution of tanks were included in the list as the tank bases were to be constructed. However, the construction works shall not be under MESPT and therefore, no Qs services will be required for this.
- Construction of butterfly water funnels is a special innovation. The innovator will conduct training and develop a standard document for inspection by Qs after completion.
- Nurseries – Qs will be required to develop BoQ/Technical specifications and issue completion certificates.
- Other construction works, Qs shall be required to develop BoQ, supervise and issue completion certificates.
- Submission deadline shall be **extended to 18th Feb 2025 at 12.00noon.**
